11–13 September 2012
Pasadena Convention Center
Pasadena, California

WHAT IS THE AIAA SPACE CONFERENCE & EXPOSITION?

The AIAA SPACE Conference & Exposition is AIAA's premier event for engineering and management professionals focused on space technologies, systems, programs, and policy. In 2012, government and industry leaders will explore ***Creating a Sustainable Vision for Space.*** As an exhibitor at the event you will gain brand recognition and be exposed to a broad audience to top industry and government leaders, engineers, and researchers. Join us in Pasadena, where we expect attendees from NASA Jet Propulsion Laboratory, California Institute of Technology, and other California-area organizations, as well as from across the country and around the world. We strive to enhance the exhibitor experience through networking opportunities and coffee breaks, receptions, and an exhibitor presentation stage, as well as with VIP tours through the exhibit hall with industry decision makers. Don't miss this amazing opportunity!
