

**Jody Singer, Deputy Manager
Space Launch System (SLS) Program
NASA Marshall Space Flight Center**

Jody Singer is Deputy Manager of NASA's Space Launch System Program, located at NASA's Marshall Space Flight Center, where she is responsible for developing a safe, affordable, and sustainable heavy-lift human-rated vehicle for entirely new missions beyond Earth's orbit.

Ms. Singer earned a bachelor's degree in industrial engineering from the University of Alabama. Her awards include the Rotary Club's Stellar Award in 2012, NASA's Outstanding Leadership Medal, the Presidential Rank Award for Meritorious Executives, the Space Flight Awareness Leadership Award, the Exceptional Service Medal, and the Silver Snoopy Award from NASA's Astronaut Corps.
