

Maria T. Zuber is the E. A. Griswold Professor of Geophysics at the Massachusetts Institute of Technology and currently serves as Principal Investigator of NASA's Gravity Recovery and Interior Laboratory (GRAIL) Mission. Professor Zuber has been involved in more than half a dozen NASA planetary missions aimed at mapping the Moon, Mars, Mercury and several asteroids. She holds a B.A. from the University of Pennsylvania and a Sc.M. and Ph.D. from Brown University. She has won numerous awards including the MIT James R. Killian Jr. Faculty Achievement Award, the American Geophysical Union Harry H. Hess Medal, NASA's Outstanding Public Leadership Medal, Group Achievement Award for the GRAIL Science Team and Outstanding Scientific Achievement Medal, as well as the Geological Society of America G.K. Gilbert Award and the American Astronautical Society/Planetary Society Carl Sagan Memorial Award. She is a member of the National Academy of Sciences and American Philosophical Society, and is a fellow of the American Academy of Arts and Sciences, the American Association for the Advancement of Science, the Geological Society of America, and the American Geophysical Union, where she served as president of the Planetary Sciences Section. In 2004 Professor Zuber served on the Presidential Commission on the Implementation of United States Space Exploration Policy. In 2002 *Discover* magazine named her one of the 50 most important women in science, and in 2008 she was named to the *USNews*/Harvard Kennedy School List of America's Best Leaders.
