

Instructions for Locating a Past Conference/Event Web Page on the AIAA Web site:

In order to locate a past conference/event web page, all that is required is that the user plug in the meeting ID at the tail end of AIAA's Meeting URLs (after "="), within their respective web browser address line. **For example:** The meeting ID for the 15th AIAA International Space Planes and Hypersonic Systems and Technologies Conference is "1877." So, the user would plug in "1877" at the end of the AIAA conference web page URL (after "="). <http://www.aiaa.org/Content.cfm?pageid=230&lumeetingid=1877>

The standard AIAA conference web page URL is:

<http://www.aiaa.org/content.cfm?pageid=230&lumeetingid=XXXX> ("XXXX" representing meeting ID, for all AIAA conference web pages).

Another Example: The meeting ID for the 35th (2004) AIAA Plasmadynamics and Lasers Conference is "978." By plugging in "978" at the end of the AIAA conference web page URL (after "="), the user will be taken to the conference web page for the 2004 Plasmadynamics and Lasers Conference:
