

SHAPE THE FUTURE OF AEROSPACE

AIAA PROFESSIONAL MEMBERSHIP

**WHERE DO YOU WANT
TO MAKE AN IMPACT?**

Let AIAA help you succeed.

A SEAT AT THE TABLE

THE BIGGEST BENEFIT OF BECOMING AN AIAA PROFESSIONAL MEMBER is the opportunity to participate in the technical committees (TCs). The past few years I've been part of the Atmospheric Flight Mechanics TC and my participation really makes me feel that I am helping shape my industry. For instance, if I feel like a certain topic is not getting enough exposure, but I know great work is being done on it, then I make sure it gets the attention it deserves by organizing special sessions at forums and reaching out to people that are knowledgeable in the subject matter to become more engaged with AIAA.

I value AIAA for giving me a seat at the table. Being part of my TC gives me a concrete way to meet people outside of my corporate bubble. My current committee chair is an instructor for U.S. Air Force test pilots—someone I would probably have never interacted with because my career is focused on spacecraft. But I've gained so much from working with someone who has an entirely different perspective. The opportunity to work with him and be part of a cross-industry group helps push aerospace forward.”

Soumyo Dutta, Aerospace Engineer, NASA Langley Research Center

AIAA's COMMITMENT TO YOU

The American Institute of Aeronautics and Astronautics (AIAA) has dedicated itself to shaping the future of aerospace and our future includes YOU. We believe that aeronautic and astronautic professionals are the drivers of global innovation. Together we make the world a safer, more connected, accessible, and prosperous place.

Our members have growth opportunities, access to a global network of fellow engineers and scientists, practical and compelling content at their fingertips, and unmatched benefits to assist their development. There's no better way to gain leadership experience, network with others in the industry, and build communication skills that are critical to professional growth.

Expand your potential impact on the future of aerospace and keep yourself at the forefront of aerospace technology by becoming a member today.

aiaa.org/join

YOUR GLOBAL COMMUNITY

AIAA connects a network of nearly 30,000 members from around the world. We provide opportunities to share information, engage with thought leadership, and participate in the aerospace professional community.

Engage

AIAA Engage allows you to connect with all of your AIAA colleagues online. Find your community and join the conversation.

Local Section Events

Meet colleagues and network with engineers and aerospace professionals near you.

Participation is Power

Help advance our industry and your leadership skills by volunteering and involving yourself in AIAA leadership, committees, and events.

“*WHAT I LIKE ABOUT BEING A MEMBER OF AIAA is it gives me an opportunity to balance my career. With AIAA, I can remain technical with my interactions with other systems engineers and have opportunities to network that I may not always have day-to-day at my organization.*”

Sophia Bright, Director of Information Technology, Boeing

YOUR TRUSTED RESOURCE

The value of membership includes essential tools and resources that inform and inspire. Take advantage of our educational opportunities, vast library of technical papers and journals, and curated news content.

AIAA Daily Launch

Stay informed on the latest industry reports that affect your day-to-day work.

Aerospace America

Get in-depth insight on the subject matter that is shaping the aerospace industry with this monthly publication.

AIAA Forums

Save on AIAA forums that provide you with the opportunity to network with your community of collaborative and innovative members. Forums tackle the most pressing issues impacting the future of aerospace and offer a deeper take on research and technologies geared to solve specific problems.

Publications

Save on books, technical papers, and journals. Plus, free access to AIAA standards documents, the tried-and-true best practices in the aerospace industry.

DirectTech Webinars

Taught by the premier experts in their fields, these courses bring the technical training to you without having to travel.

Career Center

Browse the latest jobs in the aerospace industry, post your resume, get assistance with resume writing, and receive career coaching.

For a full list of benefits, visit AIAA today.
