We Get You—Here, There, and Now Everywhere!
The AIAA AVIATION Forum is the only aviation event that covers the entire integrated spectrum of aviation business, research, development, and technology. And now for the first time, your experience will be virtual from the comfort of your home.
This is the navigation to all live programmed events that we would webcast on a predetermined schedule. Speakers/panelists would be participating from many remote locations synchronously. Live Q&A, screen sharing for any slides, etc. should all be available. Sessions would be recorded and made available on-demand either immediately or on a predetermined delay.

All prerecorded technical paper presentations (MP4 files) assigned to sessions. Available a week or so before the Forum starts for asynchronous, on-demand viewing. Q&A with authors – exploring options for using chat and possibly Live discussions.
CURATED SESSIONS

- Plenaries—LIVE then On-Demand
- Forum 360s—LIVE then On-Demand
- Lectures—LIVE then On-Demand

This is the navigation to all live programmed events that we would webcast on a predetermined schedule. Speakers/panelists would be participating from many remote locations synchronously. Live Q&A, screen sharing for any slides, etc. should all be available. Sessions would be recorded and made available on-demand either immediately or on a predetermined delay. If speakers are uncomfortable with live presentations or technology/bandwidth a concern, simulated-live approach could be used as well. With participants online live for Q&A etc. Multiple moderators per session including tech support.
