

## **AMT Oral-Only Presentations**

The Aerodynamic Measurement Technology (AMT) Technical Committee is soliciting submissions for a new, 15-minute oral-only presentation format at SciTech 2021. This format has been proposed in order to provide a venue for authors that would like to update the community on recent progress and breakthroughs that may not be in a position to develop a full manuscript. Authors interested in a presentation slot in one of these special sessions should email a one-page abstract to technical chair Chris Combs ([ccombs@utsa.edu](mailto:ccombs@utsa.edu)) by the submission deadline that includes the presentation title, author list, affiliation(s), and a brief description of the work to be presented.
